

SAFETY DATA SHEET

TOILET BOWL CLEANER

Date of Issue: June 2022

Version: 2.0

Page 1 of Total 7

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Trade Name:	TOILET BOWL CLEANER		
SUPPLIER:	Polo Citrus Australia Pty Ltd		
ADDRESS:	30 Spencer Street Sunshine West VIC 3020		
TELEPHONE:	+61 3 93649700	FAX:	+61 3 93647500
AH EMERGENCY TELEPHONE:	13 1126 in Australia	ABN:	18 064 601 332
Substance:	Water based liquid	Product Use:	Toilet Bowl Cleaner
Creation Date:	May 2022	Revision Date:	May 2027
Product Code:			

SECTION 2 – HAZARDS IDENTIFICATION

Classification of the substance or mixture

GHS Classification	Product AS SOLD	Product at USE DILUTION (1:3 or greater)
ADG Code	Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail"	Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail"
Poisons Schedule	Not scheduled	Not scheduled

Label Elements

GHS Classification	Product AS SOLD	Product at USE DILUTION (1:3 or greater)
GHS Classification	Based on available information, this material is NOT classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS7) including Work, Health and Safety regulations, Australia.	Based on available information, this material is NOT classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS7) including Work, Health and Safety regulations, Australia.
GHS Label Pictograms	None allocated	None allocated
Signal Word	None allocated	None allocated
Hazard Statement(s)	Product AS SOLD None allocated	Product at USE DILUTION (1:3 or greater) None allocated

Precautionary Statement(s): General

	Product AS SOLD	Product at USE DILUTION (1:3 or greater)
	None allocated	None allocated

Precautionary Statement(s): Prevention

	Product AS SOLD	Product at USE DILUTION (1:3 or greater)
	None allocated	None allocated

Precautionary Statement(s): Response

	Product AS SOLD	Product at USE DILUTION (1:3 or greater)
	None allocated	None allocated

Precautionary Statement(s): Storage

	Product AS SOLD	Product at USE DILUTION (1:3 or greater)
	None allocated	None allocated

Precautionary Statement(s): Disposal

	Product AS SOLD	Product at USE DILUTION (1:3 or greater)
	None allocated	None allocated

IMPORTANT This SDS and the Hazard Classifications contained therein, only apply to the product in its

SAFETY DATA SHEET

Version: 2.0

Page 2 of Total 7

concentrated form, as supplied. When diluted to 1:3 or greater with water, they no longer apply. However, good hygiene and housekeeping practices should be adhered to.

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredients:	CAS Number:	Proportion:
Ingredients determined to be non-hazardous at concentrations present	various	Balance
NOTE:	Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS7). Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes and for additive effects.	

SECTION 4 – FIRST AID MEASURES

Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).
First Aid Facilities Required	No special requirements. Washroom facilities.
Inhalation	Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.
Skin contact	Wash skin with plenty of water. Seek medical advice (e.g. doctor) if irritation, burning or redness develops.
Eye contact	Immediately irrigate with copious quantities of water for at least 20 minutes. Eyelids to be held open. Seek medical advice (e.g. ophthalmologist) if symptoms persist.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).
Advice to Doctor	Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

SECTION 5 – FIRE FIGHTING MEASURES

Fire and Explosion Hazards	Non flammable.
Extinguishing Media	Use an extinguishing media suitable for surrounding fires.
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition.
Flash Point	Non combustible

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Emergency Procedures	<ul style="list-style-type: none">• Shut off engine and electrical equipment and leave off.• Move people from immediate area; keep upwind.• Stop leak if safe to do so.• Send messenger to notify fire brigade and police.• Tell them location, material quantity, emergency contact.• Indicate condition of vehicle and damage or injuries observed.• Warn other traffic.
-----------------------------	--

SAFETY DATA SHEET

TOILET BOWL CLEANER

Date of Issue: June 2022

Version: 2.0

Page 3 of Total 7

Occupational Release	<p>Minor spills do not normally need any special clean-up measures.</p> <p>In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.</p>
-----------------------------	---

SECTION 7 – HANDLING AND STORAGE

Handling	<p>As with any chemical, avoid excessive personal contact. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling. Work clothes should be laundered. Launder contaminated clothing before re-use.</p>
Storage	<p>Store in a cool, dry, place with good ventilation. Avoid storing in aluminium and light alloy containers. Keep containers closed at all times – check regularly for leaks</p>

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Control parameters	
Occupational Exposure Limits	<p>No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.</p>
Exposure Limits	<p>National Occupational Exposure Limits, as published by National Occupational Health & Safety Commission:</p> <p>Time-weighted Average (TWA): None established for product.</p> <p>Short Term Exposure Limit (STEL): None established for product.</p>
Control parameters	
Biological Limits	<p>No biological limits allocated.</p>
PERSONAL PROTECTION PPE	
Ventilation	<p>Use in a well-ventilated area.</p>
Personal Protective Equipment	<p>Use good occupational work practice.</p> <p>The use of protective clothing and equipment depends upon the degree and nature of exposure.</p> <p>Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken.</p> <p>The following protective equipment should be available;</p>
<p>Eye Protection</p> 	<p>Subject to risk assessment, but generally not required to handle diluted solutions as per label directions.</p> <p>The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.</p>

SAFETY DATA SHEET

TOILET BOWL CLEANER

Date of Issue: June 2022

Version: 2.0

Page 4 of Total 7

Skin Protection 	<p>Subject to risk assessment, but generally not required to handle diluted solutions as per label directions.</p> <p>Wear gloves. Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.</p>
Protective Material Types	<p>Material suitable for mild detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile.</p>
Respirator 	<p>Not required for normal cleaning operations with adequate ventilation.</p> <p>If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable dust/particulate filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.</p>

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Slightly Viscous Liquid	Colour	Clear
Odour	Faint	Specific Gravity	1.00 – 1.02 @ 25 °C
Boiling Point	Approximately 100 °C	Freezing Point	Approximately 0 °C
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Not flammable	Flammable Limits	None
Water Solubility	Miscible in all proportions	pH	~ > 1.75 @ 25 °C (1% w/w water)
Volatile Organic Compounds (VOC)	0 % v/v	Coefficient of Water/Oil Distribution	Not available
Viscosity	Not available	Odour Threshold	Not available
Evaporation Rate	Not available	Per Cent Volatile	Not available

SECTION 10 – STABILITY AND REACTIVITY

Reactivity	Stable at normal temperatures and pressure.
Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Conditions to avoid	Avoid contact with heat or heat sources.
Incompatible materials	None known.
Hazardous decomposition products	Product can decompose on combustion to form Carbon Monoxide, Carbon Dioxide, and other possibly toxic gases and vapours.
Hazardous Reactions	None known.

SECTION 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS	
No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:	
Inhaled	Inhalation of generated mists may result in mucous membrane irritation of the respiratory tract and coughing.

SAFETY DATA SHEET

TOILET BOWL CLEANER

Date of Issue: June 2022

Version: 2.0

Page 5 of Total 7

Ingestion	Ingestion may result in irritation to the mouth and throat, nausea, vomiting.
Skin Contact	Skin contact may result in irritation, redness, pain, rash, dermatitis. Severity depends on the concentration and duration of exposure.
Eye	Contact may result in irritation, lacrimation, pain, redness, conjunctivitis.
Chronic	No known effects.
Oral Toxicity	Not classified as toxic or harmful. LD50 (ATE calculated) >10,000mg/kg body weight.
Carcinogen Status	
NOHSC	No significant ingredient is classified as carcinogenic by NOHSC.
NTP	No significant ingredient is classified as carcinogenic by NTP.
IARC	No significant ingredient is classified as carcinogenic by IARC.
Respiratory sensitisation	Not expected to be a respiratory sensitizer.
Skin Sensitisation	Not expected to be a skin sensitizer.
Germ cell mutagenicity	Not considered to be a mutagenic hazard.
Reproductive Toxicity	Not considered to be toxic to reproduction.
STOT-single exposure	Not expected to cause toxicity to a specific target organ.
STOT-repeated exposure	Not expected to cause toxicity to a specific target organ.
Aspiration Hazard	Not expected to be an aspiration hazard.

SECTION 12 – ECOLOGICAL INFORMATION

General	No single ingredient (over 1%) recognised as environmental pollutant. Product miscible in all proportions with water. AS WITH ANY CHEMICAL PRODUCT, DO NOT DISCHARGE INTO DRAINS, WATERWAYS, SEWER OR ENVIRONMENT. Inform local authorities if this occurs.
Acute Aquatic Toxicity	
Product (as sold)	Acute Toxicity to fish (ATE calculated): LC50: 104 - 335 mg/L Acute Aquatic Toxicity NOT HAZARDOUS – Not harmful to aquatic life. LC50 > 100mg/L.
Product (at use dilution and rinse)	Acute Aquatic Toxicity (ATE Calculated) LC50: 10400 - 33520 mg/L. Acute Aquatic Toxicity NOT HAZARDOUS – Not harmful to aquatic life. LC50 > 100mg/L.
Persistence and degradability	Readily biodegradable, based on ingredients.
Bio accumulative potential	No bioaccumulation is expected.
Mobility in soil	Due to its physico-chemical characteristics, highly mobile in the environment and will partition to the aquatic compartment.
Other adverse effects	Not available
Environmental Protection	Do not discharge this material into waterways.

SECTION 13 – DISPOSAL CONSIDERATIONS

Product and Packaging Disposal	Dispose of contents/container to chemical landfill. Consult local or regional waste management authority for further details.
---------------------------------------	---

SECTION 14 – TRANSPORT INFORMATION

Labels Required	
ADG	None allocated
Marine Pollutant	No
HAZCHEM	None allocated

SECTION 15 – REGULATORY INFORMATION	
GHS Classification	Based on available information, this material is classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS7) including Work, Health and Safety regulations, Australia.
SUSMP	Not scheduled.
ADG Code	Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail"
AICS	All ingredients present on AICS.

SECTION 16 – OTHER INFORMATION	
Issue Date	1 st March 2022
Version Number	V 2.0 issued to GHS7 revisions.
Abbreviations and acronyms	ADG Code: Australian Code for the Transport of Dangerous Goods by Road and Rail. AICS: Australian Inventory of Chemical Substances. CAS Number: Chemical Abstracts Service Registry Number. GHS: Globally Harmonized System of Classification and Labelling of Chemicals HAZCHEM: An emergency action code of numbers and letters which gives information to emergency services. HSIS: Hazardous Substances Information System IARC: International Agency for Research on Cancer.

Risk assessments	<p>This SDS is a tool to communicate hazards which can assist you in creating relevant risk assessments for your workplace. There are many variables in determining whether a particular hazard is a risk in your workplace. Keep in mind this may be influenced by such things as the amount used, frequency of use, engineering controls, effectiveness of safety training and many more considerations.</p>
Disclaimer	<p>This MSDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.</p>
Note	<p>Safety Data Sheets are updated frequently. Please ensure that you have a current copy.</p>
